

Bluntisham Baptist Church

January 2021 News

PROJECT NEWS

Our church buildings may currently be closed but our church is very much alive.

2021 brings a new dawn of hope for the whole world in the fight against Covid, and that hope covers the building project too.

The rear rooms refurbishment will start soon.

The team will receive the quotes for the work in early January and they will then recommend a builder for approval. The aim is to start work in February/March.

FINANCE

We thank our fellow EBA churches for their last donations totalling £333. We are so grateful for their support.

The church members have **approved the finance** arrangements for the project at a recent meeting. Thankfully we were able to approve everything by an online meeting.

If you would like to make a **donation**, and any donation no matter how small or large is always welcome. Please contact Peter.

A reminder of our vision for the new year

“Our vision is for an attractive, God-centred church building that it is primarily a place of worship – an inviting place to meet with God and with each other.

Our vision is for a building that is accessible to everyone and is welcoming, warm, comfortable and safe.

Our vision is for the building to be updated to modern standards and be equipped for the future, while remaining sympathetic to its history”
